

Fine Tune Your Business for Optimal Performance

Friday, April 11
11 a.m.–2 p.m.

Crevier Classic Cars
365-B Clinton Street
Costa Mesa, CA 92626

Presented by Cisco and
FUSION^{IP}
DIVERSIFIED IP COMMUNICATIONS

Like classic cars, businesses on a growth curve must be tuned to perfection. The payoff, of course, is optimal performance. And we can help your business achieve that with the right combination of communications, security, and compliance solutions.

Break Away from the Pack

Please join Cisco and Fusion IP for lunch and briefing that will get you up to speed on unified communications and security solutions that can help your business:

- Improve operational efficiencies
- Increase productivity and collaboration
- Enhance customer satisfaction
- Ensure security throughout the network

Cisco Unified Communications

Gain the structure to integrate your communications more closely with business processes, and ensure information reaches recipients quickly and through the most appropriate medium.

Security

Take advantage of the most secure and reliable solutions possible at all layers of your network to protect your communications and data assets.
